This order was revised in September of last year. Since nothing of substance changed, guidance had not been forthcoming.

The order did not change anything requiring revising the process for WFO/OFA. The substance of the changes involved WFO/NFE. For your information, the changes involving WFO/OFA are as follows:

1. The certification required by 4.c on page 3 is not delegable to DOE contractors.
2. Minor change was made to 4.k on page 5, the chair for the SAPOC has been identified.
3. Item 6.s on page 12, SAP reference (DOE M 471.2-3) has been added.

If you have any questions, please contact Sal Alvarez at 845-5685.
